Quotes:

Ville Kähkönen / Hannu Manninen (FIN): "It was a good race from all of us today, also the jumping was good. The time difference between us and the leading Austrians was not too big, so we hoped we could be either second or first. The whole situation was not bad and we believed that we could do it and so we won. Hannu did a great job in the last two rounds and we are all very happy that we could take that first place today and show what we are able to do!"

Felix Gottwald (AUT): "Our whole team just had great jumps today. Therefore we had the best starting position for the race. Unfortunately not everything worked out in the cross country race and therefore we got second today. But, the second place is a good place as well and as long as we gain first place in Sapporo, everything is fine ☺ Personally, I am satisfied with my performance; my jumps get steadier and steadier now which gives me quite a lot of confidence for the next competitions and the World Championships."

Magnus Moan (NOR): "In the first round, everyone of us did a great job, however, Espen and me missed the second one; we both can do better than that, but shit happens! But we were second after jumping which was a good starting position for the race. But here, we see that we are not good enough yet to win and that we have to work on that until Sapporo so that we can fight for gold there. But we got a place on the podium which was our main goal and therefore we are happy with the result!"
