COVID-19 Prevention concept

General safety and hygiene rules

The local organising committee, together with the Austrian Ski Association ÖSV, is currently drawing up the generally applicable guidelines and measures for the organisation of COC events in Austria.

All athletes, coaches and supervisors have to present a PCR test on arrival, which is not older than 72 hours.

The present COVID-19 prevention concept was developed on the basis of the current COVID-19 measures law in connection with the currently valid COVID-19 relaxation regulations and COVID-19 recommendations for action of the ministries.

It is requested to carry out fever scans and superficial health checks and interviews with the teams on own responsibility before arrival. Should symptoms of illness be detected, participation is to be refrained and the organizer is to be informed.

We advise all participants to keep a minimum distance of 1,5 meter between persons in indoor and outdoor areas.

Masks are compulsory in the entire event area, especially on all public areas, when collecting the start numbers and in the access and entry areas.

Athletes, servicestaff/coaches and other persons present at the competition sites, who show symptoms of illness, are not allowed to enter the facilities/areas for training and competition.

The cable car may only be entered with an FFP2 mask

Keep distance, wear a mask, wash your hands!
